

DARSH OHRI

Full-Stack & AI Software Developer | B.Tech CSE (Data Science Specialization)
Chandigarh, India | darshohri@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science & Engineering undergraduate specializing in Data Science, with hands-on experience delivering 6+ full-stack and AI-integrated web applications and two technical internships spanning front-end engineering and digital marketing analytics. Proficient in React, Next.js, TypeScript, FastAPI, and LLM integration (Gemini, Groq), with a track record of shipping production-grade products that have won [5+] national-level hackathons and ideathons. Seeking a Software Engineering / Full-Stack Developer internship or entry-level role to apply strong full-stack, AI integration, and problem-solving skills toward building scalable, data-driven products on a high-performing engineering team.

CORE COMPETENCIES

Languages: Python, JavaScript, TypeScript, Java, C
Frontend Development: React, Next.js, HTML5, CSS3, Tailwind CSS, Three.js, Framer Motion, Responsive/Mobile-First Design
Backend & APIs: FastAPI, Node.js, RESTful API Design, Gemini API, Groq API, Prompt Engineering
Databases & Storage: PostgreSQL, MongoDB, Firebase, IndexedDB
Cloud & Tools: Git, GitHub, Vercel, VS Code, CI/CD Fundamentals, Adobe Premiere Pro, Canva
Methodologies: Agile Collaboration, Data Structures & Algorithms, AI/LLM Integration, Cross-Functional Team Leadership

PROFESSIONAL EXPERIENCE

Launched Global <i>Web Development Intern</i>	Remote <i>May 2026 – Jul 2026</i>
- Reduced cross-device rendering inconsistencies by [25%], as measured by QA pass rate across browsers, by architecting responsive, mobile-first web pages using HTML5, CSS3, and vanilla JavaScript for [8+] client-facing modules. - Improved front-end code maintainability by [20%], as measured by reduction in duplicated CSS/JS blocks, by refactoring legacy components into modular, reusable UI patterns following clean-code best practices. - Achieved a [95%] mentor design-review approval rate, as measured by structured code and UI critiques, by implementing accessible, standards-compliant layouts aligned with modern web development conventions. - Completed an intensive 8-week Web Development Mentorship Program (Futureex.ai x Launched Global), as measured by successful delivery of [4+] hands-on front-end projects, by applying Git-based version control and industry coding standards.	
MAG Insights (Management Analytics Gateway) <i>Social Media & Marketing Intern</i>	Hybrid <i>Jan 2026 – Mar 2026</i>
- Increased organic audience engagement by [35%], as measured by post-level interaction analytics, by producing and directing [10+] short-form video commercials tailored to target-audience segments. - Accelerated content pipeline throughput by [40%], as measured by weekly published-asset volume, by co-managing end-to-end production of marketing videos and promotional assets using Adobe Premiere Pro. - Grew follower base by [15%] quarter-over-quarter, as measured by platform-native growth analytics, by executing data-informed digital campaign strategies in collaboration with cross-functional marketing teams.	
ACM Student Chapter, SVKM NMIMS Chandigarh <i>Cultural Coordinator</i>	On-Campus <i>Sep 2025 – Present</i>
- Strengthened community engagement across [300+] chapter members, as measured by a [20%] increase in event attendance, by orchestrating cross-departmental technical and cultural events. - Reduced event-coordination turnaround time by [20%], as measured by planning-to-execution cycle time, by liaising directly with SVKM directors, ACM chairs, and international advisors to run weekly code circles.	

KEY PROJECTS

FinWise AI — Full-Stack Developer

- Delivered an AI-powered personal-finance platform spanning [5] integrated modules (AI financial mentor, scam/fraud detection, goal tracking, market simulations, gamified education), as measured by full end-to-end feature completion, by building a Next.js, FastAPI, and Firebase architecture with Gemini and Groq LLM integration. Stack: Next.js, React, FastAPI, Python, Tailwind CSS, Three.js, Framer Motion, Firebase, Groq, Gemini.

Ziro — Full-Stack Developer

- Engineered an intelligent blockchain payment layer reducing transaction friction by [30%], as measured by pre-flight risk-check coverage, by implementing zero-gas Layer-2 micro-remittances, AI scam/address-poisoning detection, and Zero-Knowledge credit scoring on Polygon Amoy. Stack: Next.js, React, TypeScript, FastAPI, Python, Tailwind CSS, Framer Motion.

Lumiere — Core Frontend Engineer (Hack-O-Mania 2.0, Team of 5)

- Cut manual patient-record audit time by 18 seconds per record, as measured by FastAPI-backed identity-resolution benchmarking, by co-designing a React interface with side-by-side visual diffs for mismatched patient entries, then presenting the system to 4 healthcare-industry judges. Stack: Next.js, React, FastAPI, Python, PostgreSQL, Tailwind CSS.

BYOK — Lead Systems Architect

- Ensured 100% on-device data privacy, as measured by zero server-side data retention, by architecting an offline-first React/Vite chat interface with IndexedDB storage and client-side API key configuration via the official @google/genai SDK. Stack: JavaScript, React, TypeScript, IndexedDB, API.

Campus Connect — Lead Frontend Engineer

- Improved page-load speed by [25%], as measured by Lighthouse performance audits, by building responsive Tailwind CSS layouts and high-fidelity search filters matching students to mentors across [12] skill categories. Stack: React, Node.js, MongoDB, Tailwind CSS.

NutriDish — Full-Stack Developer

- Automated real-time nutrition tracking across [500+] ingredients, as measured by macro and calorie-accuracy benchmarks, by integrating third-party nutrition APIs into a Java-based recipe management dashboard with automated meal-plan recommendations. Stack: Java, HTML5, CSS3, JavaScript, Nutrition APIs.

EDUCATION

B.Tech, Computer Science & Engineering (Data Science Specialization)

SVKM's NMIMS Chandigarh

2025 – 2029

Chandigarh, India

CERTIFICATIONS & VIRTUAL EXPERIENCE PROGRAMS

- GenAI Powered Data Analytics — Tata
- Quantitative Research Job Simulation — J.P. Morgan Chase & Co.
- Technology Job Simulation — Deloitte Australia
- GenAI Virtual Experience Program — BCG
- Google Solution Challenge 2026 — Participant

ACHIEVEMENTS & LEADERSHIP

- 1st Place — Plaksha Prayas Tech Hackathon 2026, Future Finance Track
- Winner — ACM-SIH Ideathon
- 1st Place — Byte Battle, Code2Career Club
- Top 6 — StoxraHack 2026
- Top 67 Nationwide — Confluence 2.0 International Innovation Hackathon
- 1st Position — ANVIKSHA 2.0 Quiz Competition, "Array Pata Hai?" (2025)
- 1st Position — U-Genius 2.0 National Finalist, Union Bank of India Quiz Competition (2023)
- Organizing Committee Key Member — International Conference on Technological Data Systems, IICTDS (2025)
